

PRODUCT DATA SHEET: PLUS ONE—READYSHIP

Plus One—ReadyShip is UPS Ready Certified and fully integrates UPS shipping with the SAP Business One application, the single integrated solution for small businesses to manage their entire operations. Now there's no need to leave SAP Business One while on the shipping floor. ReadyShip enables users to ship parcels directly from the delivery document. This solution is ideal for companies that want to streamline shipping processes and manage their UPS shipping without having to leave SAP Business One or any other external bolt-on application. All necessary UPS functionality is now delivered through integration with SAP Business One.

PRODUCT OVERVIEW

In today's fast-paced economy, business is moving faster than ever before. And as companies race to compete, meeting and exceeding customer expectations can be a difficult task. When it comes to shipping, customers want up-to-the-minute delivery status and as such want their orders faster and cheaper.

To simplify and expedite the shipping process, *Plus One—ReadyShip*, a fully integrated UPS shipping module is integrated with SAP Business One, so you can quickly and easily quote, ship, and track every UPS package all from within SAP Business One; saving your business more time & money.

Here's a glance of what ReadyShip will do for you:

Eliminate Worry about sending parcels to an invalid address due to faulty data. Street-level address verification can be completed right from the delivery document.

Increase Productivity by using one integrated solution for everything—UPS shipping is now integrated with SAP Business One.

Increase Customer Satisfaction by giving up-to-the-minute tracking status of any shipped parcel

Expand your customer base by shipping internationally

Eliminate extra steps by completing all UPS shipping on-line

Simplify the shipping process by integrating scales to enter the correct shipping weights and dimensions directly with SAP Business One.
