

The SAP you know, for growing small and mid-size Life Science organizations.

Who We Are?

Life Sciences and Biotechnology organizations come to Navigator Business Solutions when they find their ability to scale and meet the compliance rigors of the regulatory environment is being limited by their current business processes and systems. All have outgrown their business systems (i.e., Quickbooks and Spreadsheets or Legacy platforms) and find that they are unable to support the company's growth and strategic objectives. They come to Navigator because they have come to the same conclusion - they need to align their systems with their strategies.

As an SAP Gold Partner, and one of the top SAP implementation partners in the world, Navigator focuses on helping small and mid-sized companies deploy cost-effective, cloud-based ERP solutions based on the market-leading SAP Business ByDesign and SAP S/4 HANA Cloud platforms.

Our proven approach provides customers with both the experienced leadership and industry knowledge to support growth, change, and validation while reliably controlling back-office costs and improving operating margins. Navigator has maintained SAP Gold Partner status for 15 years.

How We Make It Better?

Navigator combines the people, processes, and technology along with industry-specific knowledge to deliver a solution platform that delivers accurate, reliable information in real-time - anytime, anywhere on any device. We provide these solutions using our award-winning ERP professional services team; delivering implementation, configuration, consulting, training, and US-based Development and Support.

Why Are We Different?

Simply put, our people and our approach make the difference. Navigator uses an optimized approach to deploying solutions using a combination of best practices and an innovative, workshop-based implementation methodology that helps accelerate the digital transformation of companies' ERP platforms. This approach delivers a rapid time to value and rapid time to benefit, enabling the organizational resources to be better spent on analyzing and transforming their businesses to meet today's demanding market challenges.

Why Should You Care?

With 600+ clients implemented, we understand your business and how to apply our proven expertise to solve your business needs. In addition to the 36 business process scenarios included in the Cloud ERP software, we offer an entire suite of SAP-certified, integrated extensions to help better leverage your system. These integrated extensions include Warehouse Management, EDI, shipping, QMS, CAPA, Recall Management, Multi-Location Support, FDA, and GDPR Compliance, and more.

- Financial Executives - have all your financial data in one place, SOX & GAAP compliant and visible
