Five Steps To Making ERP Work

5 Steps in 12 weeks

SAP® Business One delivered by **NAVIGATOR**

An ERP selection is a 10-15 year decision.
You can't make a mistake - make the safe decision with SAP.

Keeping It Simple, works.

Maximizing the value of your investment in the shortest period of time is a major consideration. Replacing multiple stand-alone software solutions with one cloud based, complete business solution suite, will lower the total cost of ownership and excellerate your return on investment.

Step 1
Setting Up The Solution

Setting up and configuring the system to represent your business is the first step of the process.
We will use our Business Blueprint to capture your company specific info and configure your tenant based on this Blueprint.

Typically takes 1-2 weeks.

Step 2
Loading Your Data

59% COMPLETE

We will assist you in migrating your existing data to the new system. The process is well defined, but it takes both of us working together in order to succeed.

Typically takes 1- 2 weeks

Step 3
Testing & Training

Providing access to key users of the system to ensure all mapped business processes as well as relevant data is in place and working good. Training all key users (typically department heads) to use the system effectively. End user training is also available if you would like us to help.

Typically takes 4-5 weeks.

Step 4
Go-Live

Ensure all data is ready in the system, all users are enabled and ready to turn the system loose.

Typically takes 2-3 weeks

Step 5
Start Using Your System

Presto... Your cloud ERP is up and running! "

Start to finish" in 8-12 weeks.

The SAP® Business One solution offers an affordable way to manage your entire business – from accounting and financials, purchasing, inventory, sales and customer relationships, and project management, to operations and human resources.
