

PRODUCT DATA SHEET: iConnect for SAP Business One

Now more than ever before competitive edge requires consistently delivering your products faster, cheaper, and more conveniently. In many cases, this is a connection to an existing online shipping cart or eCommerce site. However, a rapidly growing business sometimes needs more than just eCommerce. In some cases, they need 3rd party logistics, point-of-sale, and extended CRM capabilities such as Salesforce.com. With the connector, SAP Business One becomes the only tool you need to run your entire business simply by communicating between SAP and your existing point solutions, making the flow of information smoother than ever.

PRODUCT OVERVIEW

- SAP Business One iConnect provides a seamless method to completely integrate your SAP Business One system with your current or future eCommerce website. Through the connector, orders from your website will automatically be loaded into SAP Business One—accompanied by an alert to let you know an order has arrived—ultimately driving more products off-the-shelf.
- Leverages the best-of-breed functionality of SAP Business One and eCommerce, CRM, EDI, 3PL, credit cards, shipping, sales tax automation and POS packages such as Magento, WooCommerce and Yahoo! Store, Salesforce.com, and NCR Counterpoint CRM. Now, there's no need to settle for a non-functioning website or a less powerful ERP system. The connector enables fullest functionality, seamless sharing data between the existing point solutions
- Full features list, enabling complete synchronization of item masters, pricelists, special/volume pricing, item inventory, sales taxes, business partners, orders, deliveries, shipping & tracking and credit card payments
- No need to modify to customize your website to accommodate the connector. Whether you have one already or need to create one, the connector is simply a two-way translator between the SAP system and the iConnect(ed) website, so it can be implemented on both existing new websites.

YOUR TRUSTED PARTNER, MAKING EVERY CUSTOMER A BEST-RUN BUSINESS
